* Perfect HSE Day
A Perfect HSE Day means all employees go home safely to their families and the environment is not harmed.

- No recordable injuries/illnesses
- No significant motor vehicle accidents (MVA)
- No significant environmental spills/releases

We use the OSHA definition of recordable injury/illness.
For vehicles, we include IOGP defined Motor Vehicle Crashes and Motor Vehicle Accidents comprised of leased/owned vehicles on business and non-company business and personal vehicles on company business.
The definition of significant environmental spills/releases aligns with IOGP and industry practice and includes spills of 1 barrel or more under BHGE operational control occurring outside of secondary containment.

** Updated since last year's Performance Data summary
